WORK HISTORY

Co-owner/Wedding Photographer

Willow & Co., 2012 to Present

www.willowand.co

- Work under high pressure to produce creative images on a one-off, high stress day.
- Working in cross-functional teams with various vendors to come together to create a cohesive vision.
- Photographing weddings solo and in a team, capturing a high standard of creative and technical work.
- Managing admin and all client relations from a home office.
- Engaged to speak at industry events to other creatives.

Photographer

APN Outdoor, 2009 to 2011

- Capturing advertising panels for clients to show campaigns in situ.
- Working with sales and install teams to adapt to changing deadlines and new requests.
- Handling asset requests to capture potential advertising sites.
- Travelling interstate and overseas to capture entire markets as well as train photographers.

PROJECTS

Project 0: Tic Tac Toe

Creating my own version of TicTacToe after 2 weeks of class, I had a big focus on the aesthetics for my site.
Created with HTML/CSS/JS

<https://github.com/timhobson85/tic-tac-toe>

Project 1: Pay It Forward

Inspired by the 2019/2020 bushfire season, I was inspired to create a site as a way for people to pay it forward to donate time or goods, or request them when in need.
Created with Ruby/Rails/HTML/CSS

<https://github.com/timhobson85/pif>

Project 2: Stalk

Group Project to create a site where you can keep a schedule for watering indoor plants. It also allows you view other user's plants and also keep updates and photos of your plants' progress.
Created with React/Rails/HTML/CSS/JS
